Chifunde Gold Project
Tete Province, Mozambique

Strong Corporate Responsibility

ENVIRONMENTAL

The Company understands that local communities rely on the land for their subsistence needs and are fully supportive of this.

ALG aims to minimise the impact of our operations on the viability and diversity of the surrounding environment.

SOCIAL

ALG aims to be actively involved with local communities and their leaders regarding plans for the project, potential social or community requirements and mutually beneficial collaboration.

GOVERNANCE

The ALG Board has adopted the QCA Code for Corporate Governance.

ALG is committed to improving performance while reducing and mitigating risks in order to create sustainable growth.

ALG Committed to Sustainable Development

Community Development

 ALG strives to empower nearby communities.

 Upskilling local workers to leave a lasting legacy and ensure potential for future economic growth of the area

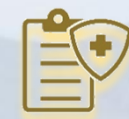

Supporting Agriculture

 ALG has assisted local subsistence farmers with much needed seed and fertilizer.

 ALG submitted an application to the Water Regional Administration (ARA) to drill water consumption boreholes for community use.

Health & Safety

 ALG prioritises the health and safety of our employees, while educating local communities about the dangers and preventative measures of illnesses and injuries.

Committed to the Community

Community Development

ALG strives to empower the communities through education by upgrading school facilities and providing education material.

Upgrading of road infrastructure to make education and medical facilities more accessible.

Empower workers by providing safety and technical training.

ALG committed to help communities to have access to clean drinking water by drilling water boreholes for the communities.

Supporting Local Agriculture

Communities are supported through assisting them with field preparation and providing them with seed and fertilizer.

Farmers are also contracted to plant vegetables and maize for the company consumption and to support the needs of the community in the dry season.

Sport Development Program

ALG sponsors community sport events and equipment to assist the development of sport in the communities and schools.

Sport is a valuable tool to unite communities and the Company.

Sport competitions between communities improve community relations and bring them together.

Environment - Green Focus

ALG is committed to protecting the environment and operating as sustainably as possible.

Reestablishment of indigenous plants through the development of a nursery.

All land affected by mining activities will be rehabilitated.

The construction of the pylons for the electricity grid from Cahora Bassa Dam to ALG and the surrounding communities will be completed within the next 18 months.

Once finished, the energy usage of ALG and these communities will be entirely green, powered by hydroelectricity.

Community Church Project

ALG upgraded five churches within the License Area.

The churches hold significant importance in these communities, serving not only as places of worship but also as vital community centers where people gather.

This initiative consists of supplying timber, roofing sheets, and other critical building materials to these churches.

This effort underscores our continued commitment to the welfare of the communities within our License Area.

Memorandum with Local Communities and Authorities

CSR OURO MULAMULI

After determining the needs of the local communities, ALG has signed a Memorandum with the local authorities to assist with local infrastructure.

The community and the local authorities are very pleased with ALG's commitment towards the community.
